THREAT LEVEL CHANGES:

None

Significant Issues:

Southeast Alaska December Storm:

A team of geotechnical consultants arrived in Haines on Monday. They will be conducting field investigations for the next week in the area of the Beach Road landslide in support of community response and recovery activities.

Tuluksak Water System Fire:

The SEOC demobilized the Emergency Management Specialist yesterday that was serving as the Tuluksak Division Supervisor for the SEOC. The SEOC remains in regular contact with community leadership to address any immediate needs

The Yukon Kuskokwim Health Corporation has installed a water pump in the Tuluksak River. River water can now be pumped to the school for basic water treatment to provide a non-potable water source. Throughout the last week the SEOC has coordinated multiple shipments of potable drinking water that have been sent to Tuluksak.

Selawik Power Outage:

SEOC was in contact with the City of Selawik yesterday for a detailed discussion on the status of the response operations. ANTHC is working with Selawik to expedite the installation of a watering point at the water plant as well as working to provide additional sanitation supplies for the community. The

Northwest Arctic Borough has provided support for families displaced by the frozen water lines, they are also working with ANTHC to provide fuel to heat the water plant. Members of the community are preparing an estimate of the funding needed to thaw and clear frozen water and sewer lines. AVEC continues to work on restoring power for the community. The SEOC will remain in contact with the community to identify any additional needs for assistance.

Unalakleet Water Issues

Repair efforts to thaw the frozen transmission lines continue. The SEOC remains in contact with the community to identify any needs for assistance.

Coronavirus (COVID-19) Pandemic:

A unified command has been established at the SEOC. The SEOC continues to support statewide response to COVID-19.
