Significant Weather:

A Winter Storm Warning is in effect for Deltana and Tanana Flats, Fortymile Country, and the Eastern Alaska Range until 1:00 P.M. Wednesday. 5 to 10 inches of snowfall is possible across the region.

Winter Weather Advisories have been issued for Denali and the Copper River Basin. 5 to 8 inches of snowfall are possible from today through tomorrow for both areas.

A Special Weather Statement has been issued for Prince William Sound. Increased winds and the potential for snowfall may reduce the visibility in the area on Tuesday.

A Special Weather Statement for elevated surf has been issued for the northern and western Arctic Coasts from Shishmaref to Utqiagvik. Water levels 1 to 1.5 feet above the normal high tide line are possible Monday evening.

A Special Weather Statement is in effect for the Middle Tanana Valley today. Fairbanks and areas east along the Richardson Highway may see 1 to 2 inches of snowfall this morning.

For more information and the most current weather, Watches / Warnings / Advisories go to:
<http://www.weather.gov/arh>

The Next Situation Report: will be 21 September 2021. A significant change in the situation or the threat level will prompt an interim report.
