Significant Weather:

Winter storm watches are in effect Friday and Saturday for all of Southeast Alaska. A strong system is expected to move over the entire Panhandle on Friday. This system may produce 4 to 18 inches or more of snow by New Years Day, then slowly move south through Sunday with additional accumulations likely.

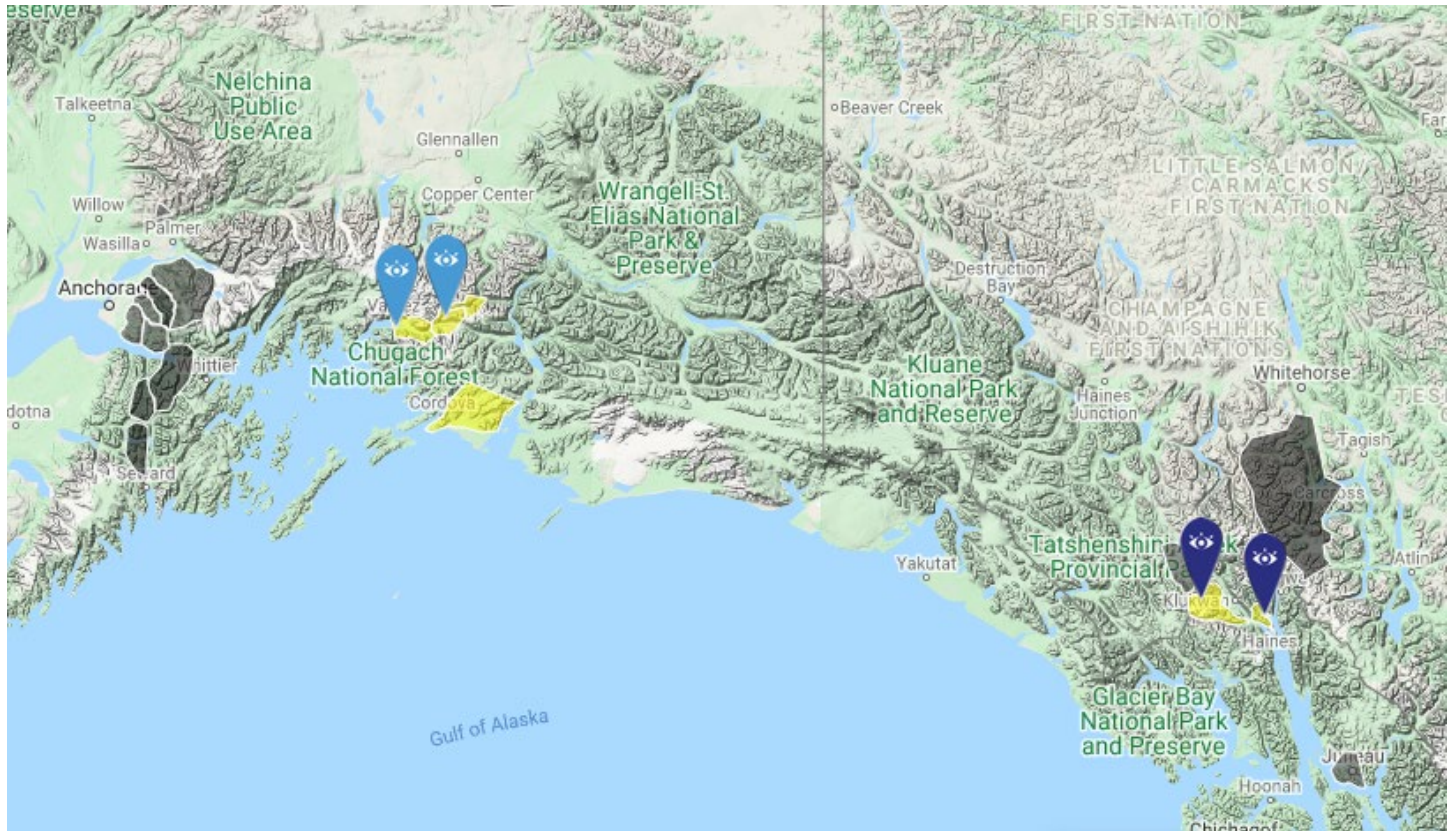

Winter storm watches are also in effect for Denali and the Eastern Alaska Range through Sunday.

Wind chill advisories are in effect for the Northwest coast from St. Lawrence Island to Wainwright through late tomorrow morning.

A winter weather advisory is in effect for the Kuskokwim Delta through 6 am Friday.

For more information and the most current weather, Watches / Warnings / Advisories go to:
<http://www.weather.gov/arh>

Avalanche Forecast:

There are areas near Haines with Considerable risk.

There are areas near Valdez, the Richardson Highway and Cordova with Moderate Risk.

Check the Avalanche Forecast Center closest to your area for the most up to date information on avalanche potential. <https://alaskasnow.org> or <https://www.weather.gov/afc/avalancheweather>

The Next Situation Report: will be **3 January, 2022**. A significant change in the situation or the threat level will prompt an interim report.
