(Significant changes from previous situation reports are in red.)

Significant Issues:

Richardson Highway remains closed from MP 218 to MP 234 due to wash out flooding. DOT anticipates this closure will continue through the weekend, depending on weather. For travel to Valdez, detour around the closure by using the Tok Cutoff and the Alaska Highway. Damaged infrastructure includes 6-7 bridges with a complete washout of Bear Creek Bridge, several damaged large culverts, and excessive amount of sediment and gravel blocking ditch lines rerouting natural drainage flows. SEOC is assisting DOT&PF with request for federal assistance from Federal Highways Administration Emergency Relief program.

Statewide Fires

Denali Borough made evacuation level changes on Clear Fire #346 yesterday. The city of Anderson, Clear, Clear Space Force Station, Bear Creek and June Creek have been reduced to “Get Ready” status. All areas accessed by Kobe Road and all cabins along the Teklanika River within two miles of the current fire perimeter ARE STILL IN “GO” STATUS.

With over 2,880,000 acres now burned statewide, there are 270 active fires with 13 staffed with personnel on the ground. The Alaska Interagency Coordination Center continues at wildland fire Planning Level 5, the highest level.

SEOC remains at Preparedness Level 2 - *Heightened Awareness* in response to the statewide fire situation. SEOC is monitoring multiple fires that pose some risk to communities and is participating regularly in Incident Management Team Cooperator briefings for these fires.

SEOC has a Disaster Division Supervisor and the Mobile Emergency Operations Center at the Minto Lakes Fire (#349) to support fire operations and coordinate with Fairbanks North Star Borough (FBNSB) Emergency Management. Several areas of the FBNSB in the Chatanika River Corridor remain evacuated with a shelter location at the Randy Smith Middle School and pet shelter at the Fairgrounds ready if needed.

SEOC is in regular contact with both Denali and Fairbanks North Star Borough’s Emergency Management coordinating state support on multiple fires. SEOC has multiple staff engaged in fire response support operations and is in daily contact with State Forestry for contingency planning of mass care, evacuation, National Guard, and other resources.

Threat Level Changes:

None.

State of Alaska Department of Health (DOH)

DOH is now leading the State of Alaska COVID-19 Recovery through Department Operations, supported by SEOC and other state departments as required.

For current COVID-19 information, see:
