THREAT LEVEL CHANGES : NONE

DHS&EM OPERATIONS

Cook Inlet Earthquake (FEMA Declaration 4413-DR)

The SEOC remains activated to Level 3. This is the 98th day since the earthquake. Today, the Alaska Earthquake Information Center has upgraded the magnitude of the Nov. 30 Earthquake to 7.1M. FEMA command and general staff will operate out of the SEOC until a Joint Field Office (JFO) can be set up hopefully next week. FEMA has 232 deployed staff and five disaster recovery centers operating in Alaska in support to this disaster. SBA reports they have approved 227 home loans and 13 business loans for a total of over \$13.2 million.

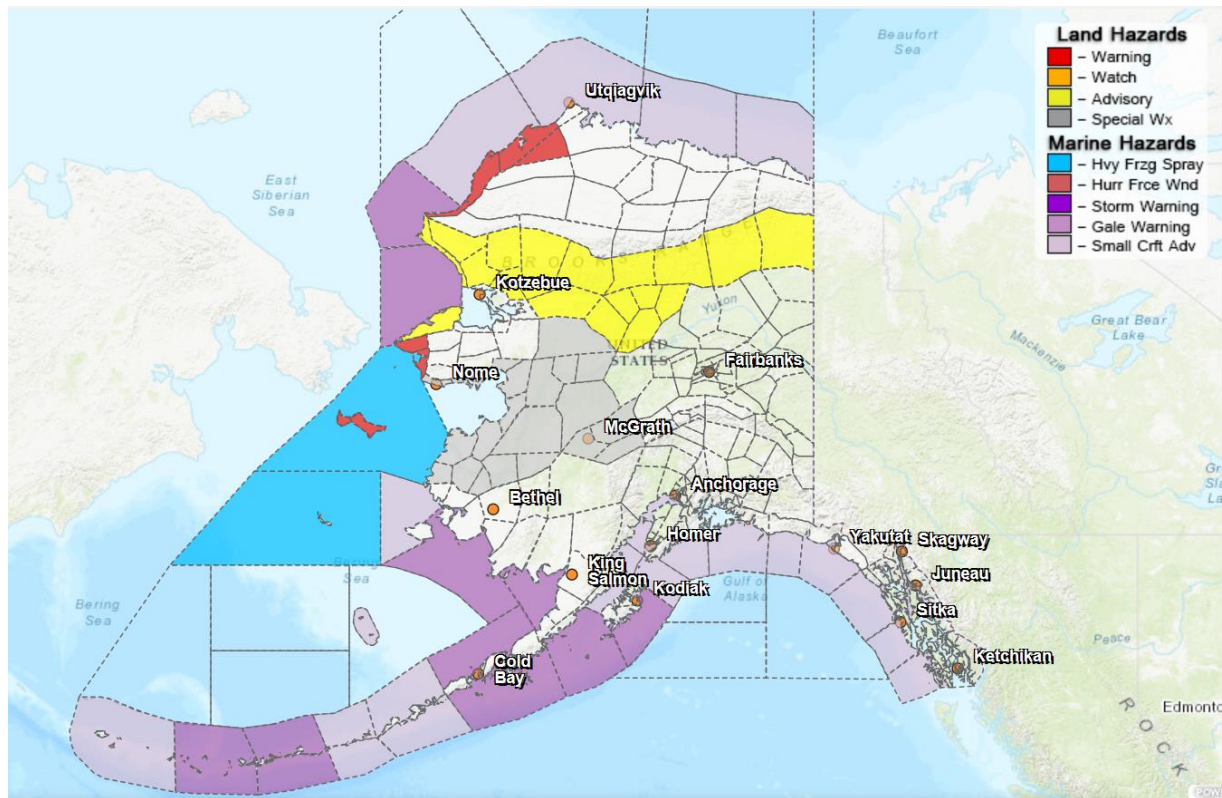

Tenakee Springs Power Outage

AEA received a call from the power utility in the City of Tenakee Springs seeking assistance. Tenakee Springs is located about 50 miles south of Juneau. All customers were without power and the local utility operators could not place any of their diesel engine generator sets (gensets) back online. All phones in the community were also offline. The operator was able to contact AEA from a residence that had a small portable generator, satellite internet, and Google Voice. AEA contacted the SEOC with this information. The AEA staff Circuit Rider technician (CR) and the utility operator spoke at length last night about testing and diagnostics. At 2100 hours, Friday they had restored one small genset to power a portion of the community. The CR technician arrived in Tenakee Springs Friday afternoon. The SEOC duty officer was not notified of any changes over the weekend however the SEOC will follow up on this situation today.

State & FEMA Response Activity

Individual Assistance (IA)	<i>All data is as of close of business (COB) prior duty day</i>
State Registrations	14,128
