(Significant changes from previous situation reports are in red.)

THREAT LEVEL CHANGES: SEOC LEVEL 1 – ROUTINE OPERATIONS

Significant Issues:

West Coast Storm

The SEOC continues to reach out to communities along the West Coast of Alaska following the strong sea storm last weekend. The SEOC continues to work with the Alaska Native Tribal Health Consortium to determine whether federal grants can apply to restore the damaged berms in Shaktoolik.

Denali Borough Flooding

The SEOC received a call from the Denali Borough Friday afternoon. They are moving forward with construction of a temporary road around the washout on Himalaya Drive. This will provide an “easy short-term fix” to restore access along this road; however, DOT&PF is working with the borough advising them concerning long-term repairs. The Borough is also working with DNR for material to assist with repairs. The SEOC will closely monitor this situation over the next several days.

Chignik Lagoon Water Shortage

The SEOC received a call from the Chignik Lagoon Village Council (CLVC) reporting a water shortage emergency. CLVC states they have had issues pulling water from the creek since the beginning of June and subsequently have not been able to refill their water storage tank. The community is now on water conservation restrictions and/or boil water notices for water obtained from other water sources. The SEOC reached out to ANTHC, Bristol Bay Area Health Corporation (BBAHC), and the DEC Drinking Water and Village Safe Water Programs. BBAHC is aware of the situation in Chignik Lagoon and have been working with CLVC and their water plant operator address this water situation. When BBAHC last spoke with CLVC Friday afternoon, there was approximately 32,600 gallons remaining in their water storage tank.

2019 Fire Season

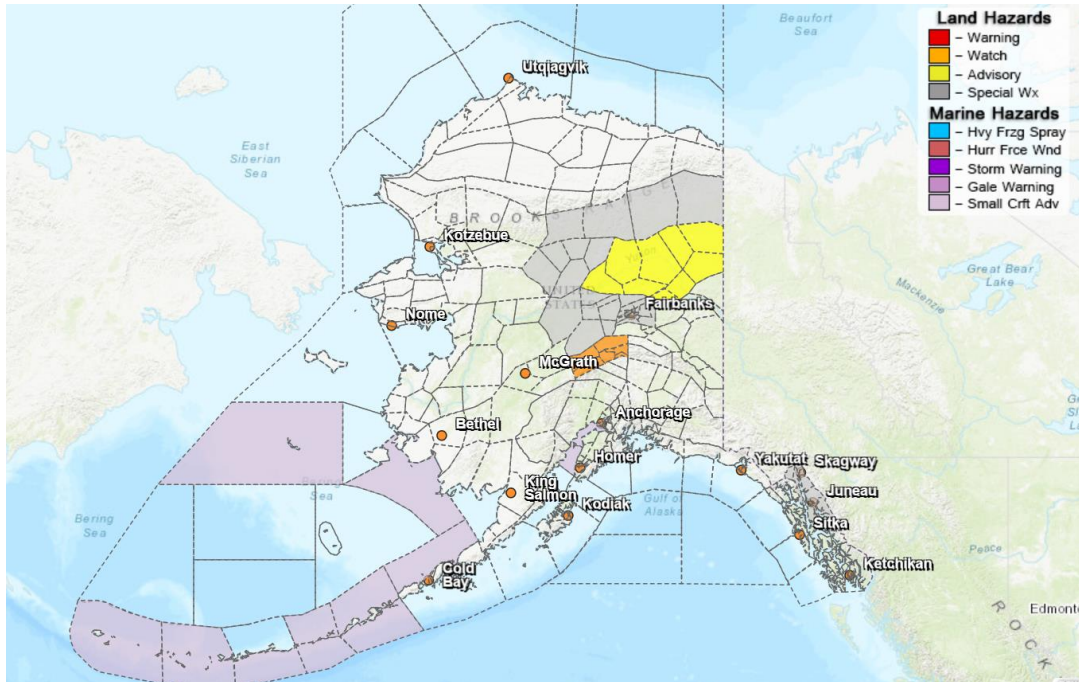

The Alaska Interagency Coordination Center, (AICC) is at Preparedness Level 2.

Wildland fire totals for 2019:

- Total Fires = 624
- Total Acres = 2,443,336.6 There are currently 223 active fires with 7 fires currently staffed.
