(Significant changes from previous situation reports are in red.)

THREAT LEVEL CHANGES:

None

Significant Issues:

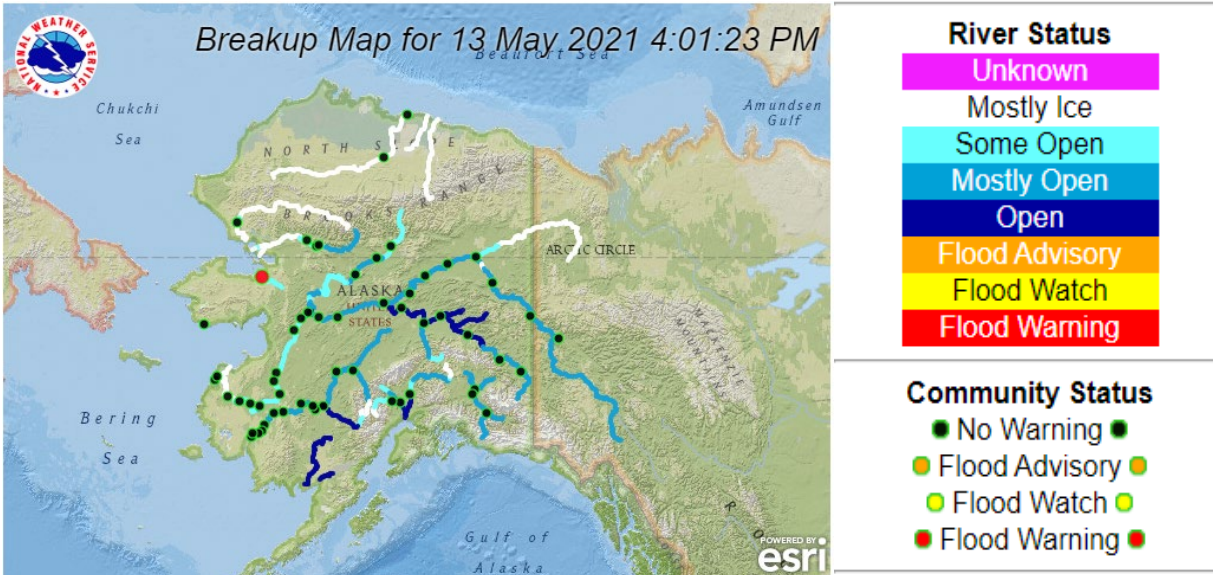

River Watch:

All Riverwatch teams have been demobilized. Updates on river conditions continue to be provided by local observers, pilot reports, and partner agencies. The State Emergency Operations Center (SEOC) continues active operational coordination with the National Weather Service and local communities.

Buckland Flooding:

The SEOC received reports of ice jam flooding in Buckland yesterday morning. SEOC is participating in response coordination meetings with the Northwest Arctic Borough, Buckland City, Buckland Tribe, and Buckland School. The City of Buckland reports community water production and distribution, and electrical systems are functioning. Some homes have been inundated and, while the airstrip is dry, water is over the airstrip access road leaving only access by boat. SEOC has established a Flood Branch for this incident and has been in contact with the Department of Public Safety, Department of Environmental Conservation, United States Coast Guard, National Weather Service, and other response partners. SEOC will continue to support the Borough in their response to this incident.

For more information on the current status of rivers, visit: <https://www.weather.gov/aprfc/breakupMap>

Coronavirus (COVID-19) Pandemic:

A unified command has been established at the SEOC. The SEOC continues to support statewide response to COVID-19.

State of Alaska Department of Health and Social Services (DHSS)

DHSS is operating as the Medical Branch under the State EOC/Unified Command. For more information about the outbreak refer to:

<https://covid19.alaska.gov/>

<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

The Alaska DHSS website is located at <http://dhss.alaska.gov/Pages/default.aspx>
