Significant Weather:

Special weather statement:

Patchy Freezing Rain Possible in the following areas: Noatak Valley; Lower Kobuk Valley; Baldwin Peninsula; Lower Yukon River; Lower Koyukuk Valley; Middle Yukon Valley; Lower Yukon and Innoko Valleys. The next round of precipitation is expected to begin on Monday and end on Tuesday. Precipitation type will vary by location, with warmer areas near the coast more likely to see rain. Sheltered inland areas that stay below freezing could see some light freezing rain. Precipitation amounts will be light, with only a light glaze of ice possible through Tuesday morning.

For more information and the most current weather, go to: <http://www.weather.gov/arh>.

The Next Situation Report will be **October 31, 2023**. A significant change in the situation or the threat level will prompt an interim report. This report is posted on the internet at <https://ready.alaska.gov/sitrep>.
