(Significant changes from previous situation reports are in red.)

**THREAT LEVEL CHANGES:** SEOC LEVEL 1 – ROUTINE OPERATIONS

**Significant Issues:** Earlier this week the Alaska Native Tribal Health Consortium (ANTHC) reported that three communities: St. Michael, Noatak, and Selawik, were all experiencing water or wastewater issues due to freeze-ups from the recent extreme cold temperatures. ANTHC Rural Utility Management Services is tracking all three issues, and advising the local utilities as necessary. There are no requests for assistance at this time. ANTHC has resolved the water issue in Noatak. The SEOC will closely monitor these restoration efforts over the next few days.

As of Tuesday, the Mayor of Savoonga reported that the power had been restored to the 16 homes that had been without power for a week due to a bad storm. The SEOC will closely monitor Savoonga over the next few days.

The SEOC is continuing to evaluate a request for disaster assistance from the Kenai Peninsula Borough (KPB) due to recent storm damages and power outages. DOT is also compiling response and repair costs for damage to several roads on the Kenai Peninsula.

The SEOC continues to monitor the response and recovery efforts underway for the flooding along the Willow Creek in the Matanuska Susitna Borough (MSB). MSB has been assisting residents needing to leave and/or re-renter their homes. MSB Operations and Maintenance Department is assessing mechanical solutions to the flooding.
