THREAT LEVEL CHANGES:

None

Significant Issues:

Tuluksak Washeteria Fire:

The SEOC along with multiple state, federal and tribal organizations is continuing to assist the community of Tuluksak in support of recovery efforts. The Governor has verbally declared a state disaster for the Tuluksak Water System Fire this week, activating the state’s public assistance programs for short-term and immediate measures to provide potable water.

Nenana Water Plant Freeze Up:

Nenana continues work to restore water service from the city water plant after it was damaged and taken offline due to frozen tanks, pipes, and equipment. The equipment has been thawed and non-potable water is flowing. A temporary holding tank with water for the affected community members has been set up to provide potable water until the treatment plant is completely back on line. Until then, Nenana is under a boil water notice from DEC. The SEOC will monitor this situation closely.

Coronavirus (COVID-19) Pandemic:

A unified command has been established at the SEOC. The SEOC continues to support statewide response to COVID-19.

State of Alaska Department of Health and Social Services (DHSS)

DHSS is operating as the Medical Branch under the State EOC/Unified Command.
