**Significant Issues:**

**Statewide Fires**

The Alaska Interagency Coordination Center continues at Planning Level 4 of 5 for wildland fires with 150 active fires. SEOC is monitoring 16 of those fires that pose some risk to communities and is participating in Incident Management Team Cooperator briefings for these fires. SEOC remains at Preparedness Level 2 - *Heightened Awareness* in response to the statewide fire situation. With very little precipitation forecast across the state, the concern for fire growth or new starts continues.

On Saturday, the Denali Borough issued an Evacuation “GO” order for three subdivisions outside the City of Anderson threatened by the Clear Fire (#346) and opened two shelters to support potential evacuees. SEOC assisted with the emergency alert notification to Borough residents and coordination with statewide mass care partners.

On Sunday, the Fairbanks North Star Brough issued an Evacuation “GO” order for several outlying areas of the Brough near the Murphy Dome Boat Launch and Chatanika River threatened by the Minto Lakes Fire. SEOC was in contact with the Brough Emergency Manager and coordinated statewide mass care partner notifications.

SEOC has initiated twice-weekly statewide mass care group coordination calls in support of fire operations and is in daily contact with State Forestry for contingency planning of Mass Care, evacuation, National Guard, and other resources.
