

## Our Costs were What?

**Emergency Contracts** - Debris, Utilities, Road Repair

**Labor** - Emergency staff, Temporary hires

**Equipment** - Vehicles, Loaders, ATV's, Pumps, Heaters

**Materials** - Stock items, Fuel, Gravel, Lumber, Repair Parts

Each year the state of Alaska is struck by Disaster events that result in extraordinary costs such as these...and more!

The expenses of Disaster response and recovery can be enormous and will exhaust your resources rapidly.

The Public Assistance program (state/federal) can reimburse some or all of your eligible, reasonable and necessary disaster related costs. PA can help replenish funding to your vital local operating budget and fund restoration of impacted facilities.

ASK US HOW THIS WORKS!

## How does PA Work?

**Alaska** - Division of Homeland Security & Emergency Management Disaster Assistance  
**Public (infrastructure) Assistance**

**Federal** - Federal Emergency Management Agency (FEMA) **Public (infrastructure) Assistance**

**State/FEMA** in partnership with local authorities assess damages and develop restoration projects and secure funds

**Local Authorities** manage projects, report progress, document costs, and request funds

**Alaska PA Staff** train local reps on programmatic, reporting, documentation and payment procedures. AK PA Staff also monitor progress, produce FEMA reports, and advocate for applicants to FEMA as needed.

**What's our best First Step?**

**BE INFORMED**

**How?**

**RECEIVE PROGRAM BRIEFING FROM AK PA STAFF**

**When?**

**UPON REQUEST (call or email)**

**WE'LL COME SEE YOU!**
