(Significant changes from previous situation reports are in red.)

THREAT LEVEL CHANGES

No changes.

DHS&EM OPERATIONS

Community Assistance and Monitored Events

Matanuska River Erosion and Flooding

The Matanuska River is moving toward the Old Glenn Highway between MP 14-15 (between Maud and Smith Roads). While the river is not flooding, it is moving rapidly and now is within 120’ of the road. There is concern that the river could damage the road, severing an important transportation link for the state and surrounding communities. The Alaska Department of Transportation and Public Facilities is installing riprap to protect critical infrastructure and homes in the area from further erosion and flooding. This work is expected to take 2-3 weeks.

Significant Weather

No weather warnings, watches, or advisories in effect at this time.

For current Alaska weather information, go to: http://www.weather.gov/arh/

2016 Fire Season

Wildland fire totals for 2016: 542 fires have burned 499,719 acres so far this fire season.

There are currently 46 active fires with 0 fires currently staffed. 3 new fires were reported yesterday and 4 fires were declared out.

Current fire information can be found at http://fire.ak.blm.gov or https://akfireinfo.com/
