THREAT LEVEL CHANGES: NONE

DHS&EM OPERATIONS

Cook Inlet Earthquake (FEMA Declaration 4413-DR)

The SEOC remains activated to Level 3. Unified Command of State and FEMA continue to work out of the SEOC until a Joint Field Office (JFO) is established. Yesterday SEOC Operations and Public Assistance staff discussed options for addressing Whitter’s reported earthquake damage and will brief the State Coordinating Officer Friday. Current joint operations under the disaster include public outreach at large hardware stores in the disaster area, survivor assistance at four Disaster Recovery Centers, inspections of individual survivor residences, Small Business Administration loans, direct deposit of survivor benefits, and meetings with infrastructure / eligible private non-profit applicants under the Public Assistance program.

Tuluksak Power Issues

This afternoon, the SEOC received word of power issues in Tuluksak. The SEOC spoke with Alaska Energy Authority (AEA) and they are aware of the issues. AEA, along with the Department of Community and Regional Affairs, are providing assistance to the community.

Significant Weather

There was no land based Warnings, Watches, or Advisories posted at the time this report was released.

For the most current weather Watches / Warnings / Advisories go to: http://www.weather.gov/arh/

**Avalanche Forecast:**

A second Alaska snowboarder in less than a week has been killed by an avalanche after a slide near Haines in Southeast Alaska. Another snowboarder was killed Saturday by an avalanche in the vicinity of Moose Pass near Seward.

Turnagain Pass, Girdwood Valley, Portage Valley, and areas on the Eastern Kenai Peninsula, including Summit Lake and the Seward zones are under an avalanche Warning Thursday after heavy snow and strong winds hit the area.

Today, avalanche danger is rated as HIGH in the Transitional, Lutak area near Haines and Turnagain Pass.
