SEOC Preparedness Level
Heightened Awareness – Response to COVID-19 and Recovery from December Southeast Storms

National Terrorism Advisory System:
View this site for the latest NTAS bulletin: read the current NTAS Bulletin here.

Maritime Security (MARSEC)
Level: 1-Minimum Appropriate Security Measures

WHO Novel Coronavirus Pandemic (COVID-19):
2019 Novel Coronavirus

Alaska Military Installation Force Protection Level: FPCON Bravo

(Significant changes from previous situation reports are in red.)

THREAT LEVEL CHANGES:
None

Significant Issues:

Southeast Alaska December Storm:
A team of geotechnical consultants arrived in Haines yesterday. They will be conducting field investigations for the next week in the area of the Beach Road landslide in support of community response and recovery activities.

Tuluksak Water System Fire:
The Yukon Kuskokwim Health Corporation has installed a water pump in the Tuluksak River. River water can now be pumped to the school for basic water treatment to provide a non-potable water source. Throughout the last week the SEOC has coordinated multiple shipments of potable drinking water that have been sent to Tuluksak.

The SEOC deployed an Emergency Management Specialist yesterday to serve as the Tuluksak Division Supervisor for the SEOC to support the response and recovery efforts that are underway for the community. SEOC is in regular contact with community leadership to address any immediate needs.

Selawik Power Outage:
AVEC and several regional organizations continue to work on frozen well transmission lines as well as power restoration to portions of the community. Currently the school and the water treatment plant
are running on back-up generators. ANTHC is planning to expedite the installation of a watering point
in the community to provide potable water. Northwest Arctic Borough is also supporting the
community needs for drinking water and fuel. The SEOC will remain in contact with the community to
identify any additional needs for assistance.

Unalakleet Water Issues

The DEC informed the SEOC that there was a water and sanitation issue in Unalakleet due to frozen
pipelines. Additionally, they have leaks in one of the main water distribution loops. Repair efforts to
thaw the frozen transmission lines continue. The SEOC will remain in contact with the community to
identify any needs for assistance.

Coronavirus (COVID-19) Pandemic:

A unified command has been established at the SEOC. The SEOC continues to support statewide
response to COVID-19.

State of Alaska Department of Health and Social Services (DHSS)

DHSS is operating as the Medical Branch under the State EOC/Unified Command.

For more information about the outbreak refer to:

https://covid19.alaska.gov/

The Alaska DHSS website is located at http://dhss.alaska.gov/Pages/default.aspx

NTAS BULLETIN

The United States Department of Homeland Security has issued a National Terrorism Advisory
System Bulletin effective January 27, 2021 for a heightened threat environment across the United
States.

Read the bulletin here: https://www.dhs.gov/sites/default/files/ntas/alerts/21_0127_ntas-bulletin.pdf
