Significant Weather:
Winter weather advisory in effect for the Lower Yukon Valley, and the Yukon Delta until 6pm Tuesday for snow mixed with freezing rain.

Special weather statements for the Central Interior, Middle and Upper Tanana Valley as well as the Eastern Alaska Range, Denali, the Deltana and Tanana Flats have been issued for significant snow fall. Areas North of Fairbanks can expect 2 to 4 inches of snow accumulation, areas near Fairbanks can expect 4 to 6 inches and areas closer to the Alaska Range can expect 6 to 12 inches of snow.

Special weather statements for the Southeastern Brooks range, Upper Koyukuk Valley and Yukon flats have been issued beginning Wednesday evening into Thursday for wind blowing snow over summits, winds are expected to gust up to 40mph.

For more information and the most current weather, Watches / Warnings / Advisories go to: http://www.weather.gov/arh.

**Avalanche Forecast:**

There are areas near Haines and Valdez with considerable risk, and near Cordova with moderate risk.

Check the Avalanche Forecast Center closest to your area for the most up to date information on avalanche potential. https://alaskasnow.org or https://www.weather.gov/afc/avalancheweather

**The Next Situation Report:** will be 09 March 2022. A significant change in the situation or the threat level will prompt an interim report.

This report is posted on the internet at https://ready.alaska.gov/sitrep. To register for email distribution, go to http://list.state.ak.us/mailman/listinfo/dhsem.situation.report. Direct questions regarding this report to the SEOC at 907-428-7100 or seoc@alaska.gov
