Significant Weather:
A Winter Storm Warning is in effect until 6:00 A.M. tomorrow for the South Klondike Highway. An additional one to two feet of heavy snow accumulation is possible at elevations above 1000 feet.

A Wind Chill Advisory is in effect from 6:00 P.M. today until noon tomorrow for the Western Arctic Coast and the Beaufort Sea Coast. Wind chills of up to 50° below are possible.

A Winter Weather Advisory remains in effect until 6:00 A.M. tomorrow for Haines and the Haines Highway. Total snow accumulations of up to 10 inches and winds gusting to 45mph are possible.

A Special Weather Statement has been issued for the Central Interior. Gusty winds are expected this afternoon through tomorrow evening. Blowing and drifting snow is possible across highway summits within the region.

A Special Weather Statement remains in effect for most of southeast Alaska. Periods of heavy rain, snow and wind are expected to impact the region through midweek. Up to 3 inches of rain is expected.

For more information and the most current weather, Watches / Warnings / Advisories go to: http://www.weather.gov/arh.

Avalanche Forecast:

There are areas near Cordova, Haines and Valdez with moderate avalanche risk

Check the Avalanche Forecast Center closest to your area for the most up to date information on avalanche potential. https://alaskasnow.org or https://www.weather.gov/afc/avalancheweather

The Next Situation Report: will be 23 March 2022. A significant change in the situation or the threat level will prompt an interim report.
