(Significant changes from previous situation reports are red.)

Significant Issues:

Juneau Glacial Outburst Flood (GLOF)

Juneau Glacial Outburst Flood – *Final Preparations*

The Suicide Basin glacial dam lake continues to fill. With anticipated rainfall in Juneau this weekend, an overtopping of the Basin and glacial outburst flood is possible in the next few days. See <https://www.juneauflood.com/#/home> for full details on the glacier, flood potential, timing, and historical incidents.

SEOC met yesterday and today with the Unified Command of the City and Borough of Juneau (CBJ)/ Central Council Tlingit- Haida Tribes of Alaska, National Weather Service, FEMA and all involved agencies to be ready to support the Unified Command.

CBJ/ Tlingit- Haida Unified Command has done extensive operational planning for response and will be in the lead during any flooding incident.

As requested by the CBJ/ Tlingit- Haida Unified Command, SEOC has a Field Operations Section Chief ready to immediately deploy to Juneau when the Basin overtops and then is prepared to follow-on with additional personnel and resources as requested by the CBJ/ Tlingit-Haida Unified Command. SEOC has established a full Incident Command structure that is in place, ready to support CBJ/ Tlingit- Haida Unified Command as required.

SEOC has also confirmed response readiness with the Alaska National Guard and all other agency partners that might be requested by the CBJ/ Tlingit- Haida Unified Command.

St. Paul Economic and Social Emergency Resolution

Yesterday SEOC received a Resolution of Economic and Social Emergency from the City of Saint Paul, triggered by the loss of regular air carrier service. SEOC has been in regular contact with St. Paul over the last two weeks to follow-up on tsunami operations and preparedness, following the recent tsunami warning. The Alaska Division of Community and Regional Affairs is also engaged with the community.
