SEOC 907.428.7100

<u>SEOC Preparedness Level</u> Level 2 – Heightened Awareness	 http://ready.alaska.gov	<u>Alaska Military Installation Force Protection Level:</u> FPCON Bravo
<u>NTAS Bulletin</u> The U.S. Department of Homeland Security issued updated National Terrorism Advisory Bulletin on June 22, 2025. https://www.dhs.gov/national-terrorism- advisory-system	<u>Maritime Security (MARSEC)</u> Level - 1 Minimum Appropriate Security Measures	

(Significant changes from previous situation reports are red.)

Significant Issues:

West Coast Storm:

The SEOC continues to track a strong storm as it begins to impact Alaska's West Coast. Most significant effects are expected to develop late tonight near midnight. The SEOC and Northwest Arctic Borough held a planning meeting today including NWS, USCG, AKNG, DOT&PF, Tribal representatives, school district, Maniilaq Heath Center and others to coordinate response plans. Evacuation areas and thresholds shared, sheltering (food, water and shelter) resources identified, rescue resources coordinated and infrastructure impacts with mitigation established. While this event is not anticipated to reach the severity of the 2022 Merbok storm, some areas could experience tides above storm surge levels from the late 2024 storm. The SEOC remains in close contact with communities predicted to be maximally impacted and will supplement overnight and standby staffing as needed.

Elfin Cove:

Yesterday water line repair supplies arrived and work on restoration of waterlines is almost complete. The SEOC Division Supervisor has been meeting nightly with community members to coordinate priorities and oversee ongoing response and recovery efforts. Demobilization is tentatively planned for Saturday.

Adak: The SEOC was contacted by the community of Adak late yesterday to provide notification of a widespread power outage having begun on Oct 3rd. The SEOC is engaged with the community in an attempt to identify needs and specific requests for assistance.

Akiak: Contractors continue to work to restore power in Akiak. The SEOC facilitated a multi-agency meeting with the community yesterday. Agencies in attendance included AEA, Calista Corp, Tribe

and City representatives, KYUK, and community members. Estimates for a functional generator to be installed and power restored early next week.
