(Significant changes from previous situation reports are red.)

Significant Issues: Typhoon Halong: West Coast Storm

Unified Command between State Emergency Operations Center (SEOC) and FEMA is working towards a transition from response to recovery with drawdown of some operations in the villages. Constraints of weather restrict some operations, while other tasks can continue. Please see the attached Press Releases for more information. Focus remains on restoring critical infrastructure so that survivors may return home back to their communities, providing temporary housing for those that cannot return and developing plans for a spring rebuilding effort.

Emerging Incidents:

None
