(Significant changes from previous situation reports are red.)

Significant Issues:

Both Individual and Public Assistance were authorized by the Governor verbally declared disaster for the Yukon Flats and Yukon-Koyukuk REAAs for river ice flooding in the communities of Chalkyitsik and Hughes. See attachment*

Governor Mike Dunleavy has expanded his May 11, disaster declaration to include the Iditarod Regional Education Area (REAA) and the Lower Yukon REAA to the areas eligible for state disaster assistance programs. See attachment*

River Watch team (Lower Yukon Division) and the SEOC are available 24/7.

2026 Riverwatch Operations

Lower Yukon Division: River Watch observed the Yukon River breakup front moving downstream past Emmonak and Alakanuk, with an approximately 30-mile run of thick bank-to-bank ice and high water upstream. Reports indicate Kwiguk Pass is beginning to jam near the mouth, which may cause water to back up into Emmonak. High water associated with the ice run has already caused flooding in upstream areas.

Alakanuk – local and overflight observation reported minor flooding is occurring primarily on the south riverbank and other flood prone locations.

Emmonak - Reports indicate Kwiguk Pass is beginning to jam near the mouth, which may cause additional water to back up into Emmonak.

Updated information on Alaska's rivers and spring breakup can be found at:
<https://www.weather.gov/aprfc/>

SEOC:

SEOC is actively engaged with city officials in Alakanuk and Emmonak providing response, mass care and recovery services as needed.

SEOC is engaged with TDX, and the City of Adak with the local disaster declaration and resolution efforts.

SEOC is in direct contact with the City of Holy Cross regarding the process for declaring, as well as disaster assistance/ mass care needs.

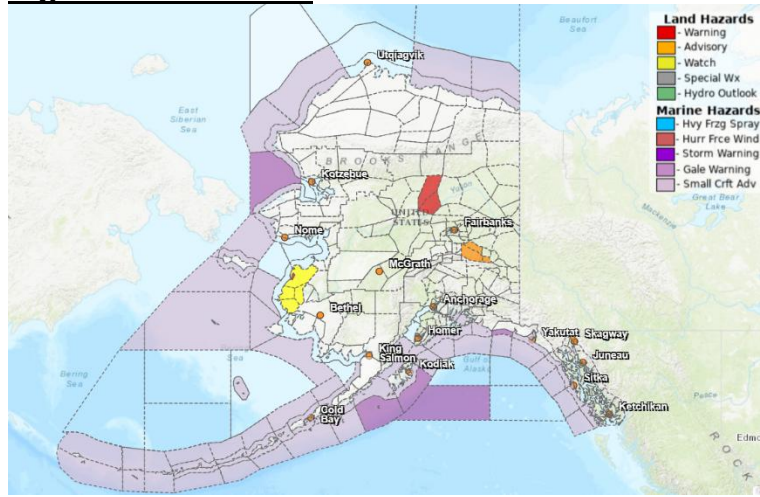

Earthquakes:

United States Geological Service (USGS) Earthquake Information: [Earthquake Hazards Program | U.S. Geological Survey](#) - National Tsunami Warning Center: <https://tsunami.gov/>

Alaska Volcanoes:

Great Sitkin: Alert Level: Watch and Aviation Color Code: Orange
Shishaldin: Alert Level: Advisory and Aviation Color Code: Yellow
Kupreanof: Alert Level: Advisory and Aviation Color Code: Yellow
