(Significant changes from previous situation reports are red.)

Significant Issues:

Storm outlook

- **Storm 1 — Concluded:** Y-K Delta impacts were lower than forecast; no issues reported.
- **Storm 2 — Arrived October 25:** Lower water levels and fewer impacts expected than Storm 1.
- **Storm 3 — Begins Monday, October 26:** Higher water forecast for Kotzebue Sound communities; severe impacts not expected.
- **Storm 4 — Ex-Typhoon Champi, October 30:** Models indicate a track toward Alaska's West Coast. Currently not expected to approach Merbok or Halong severity. Forecast refinement expected over 48–72 hours.

Community status

- **Kivalina:** Construction tower collapse damaged power lines, causing partial outages. Approximately **175 people sheltered at the school** overnight October 24. Shelter supplies and an on-site medical provider were available; no additional shelter support requested. Medical evacuation was being considered, weather permitting. Local disaster declared; Northwest Arctic Borough engaged. No October 25 update received.
- **Teller:** High water affected roads and low-lying areas. Mayor reported several households staying with family or friends. **No confirmed water in homes or requests for assistance.** Evacuation activity and a reported communications tower collapse remain unconfirmed. No October 25 update received.
- **Nome:** Power surges affected some internet connectivity. A later power outage was confirmed as unrelated to the storm.

- **Hooper Bay:** Mayor confirmed high water, with no water entering structures or substantial impacts as of October 25.

SEOC status

- Remains at **Level 2 of 4, Enhanced Watch.**
- Staff continue community outreach and monitoring throughout the storm series.
- Red Cross briefed on sheltering conditions; no SEOC support requests reported.
- SEOC staff worked diligently throughout the weekend, maintaining close coordination with communities, monitoring successive storms, and tracking shelter conditions and emerging needs to support a timely response.

Fort Yukon Water:

- City of Fort Yukon contacted SEOC regarding their water. For over a month, their water has had high levels of manganese and iron making the water brown and unsafe for infants.
- ADEC Drinking Water program and TCC Remote Maintenance Worker is engaged and providing technical assistance.
- TCC has sent 24 cases of water to the City, Radar site near by has been opened up for safe drinking water.
