(Significant changes from previous situation reports are red.)

Significant Issues:

Today marks 24 years since the tragedy of the September 11 attacks. These attacks redefined emergency management on all levels and saw the creation of centralized federal agencies, improved communication and coordination, and shifted the focus of national security to an all-hazards approach. Please take a moment to remember those that lost their lives on 9/11/01 and the responders that continue to pay the price of service.

Department of Health (DOH):
