**Significant Issues:**

**Major Coastal Sea Storm:**

The SEOC held community teleconferences yesterday with over 30 villages along the West Coast of Alaska. The National Weather Service-Alaska Region provided updated weather projections, revised storm surge and wind speeds expected for the approaching storm. Another community teleconference for the coastline villages along the Kotzebue Sound and Chukchi Coast will be held this afternoon.

The SEOC remains at Preparedness Level 2 in response to this forecasted event and will have additional staffing available over the weekend to respond to the storms. The SEOC, NWS, local and state government agencies, and private non-profit organizations are continuing to coordinate efforts to prepare for and respond to this storm.

**Threat Level Changes:**

None.

**State of Alaska Department of Health (DOH)**

The DOH is leading the State of Alaska COVID-19 Recovery, supported by the SEOC and other state departments as required.

Significant Weather:

The following weather watches, warnings, or advisories have been issued:

- High Wind Warnings remain in effect for the western coastline from Quinhagak north to Point Lay as well as St. Lawrence and the Pribilof Islands until Saturday evening. Wind speeds of up to 90mph are possible in the region.

- Coastal Flood Warnings remain in effect for the western coastline from Quinhagak north to Point Lay as well as St. Lawrence and the Pribilof Islands. High water levels of 5 to 18 feet above the normal high tide line have been forecast for the region with the highest water levels expected on Saturday. Significant flooding is expected in many coastal communities within the region.

- A Coastal Flood Watch has been issued for the Northern and Western Arctic Sea Coast. Coastal flooding is possible in the region from Saturday into Sunday.

- A Wind Advisory has been issued for the Eastern Alaska Range. 30 to 40 mph winds with gusts to 50 mph are expected from 4:00 P.M. today until 4:00 P.M. Saturday.

- A Dense Fog Advisory is in effect until 9:00 A.M. today for Western Prince of Wales Island.

- A Special Weather Statement has been issued for Bristol Bay and the Nushagak Peninsula. High surf conditions are possible in the area with water levels 2 feet above the normal high tide line.
