SEOC 907.428.7100

<u>SEOC Preparedness Level</u> Level 1 Routine Operations	http://ready.alaska.gov	<u>Alaska Military Installation Force</u> <u>Protection Level:</u> FPCON Bravo
<u>NTAS Bulletin</u> There are no current advisories https://www.dhs.gov/national-terrorism-advisory-system	<u>Maritime Security (MARSEC)</u> Level:1 Minimum Appropriate Security Measures	<u>Wildland Fires</u> https://fire.ak.blm.gov/ AICC Preparedness Level: 1

(Significant changes from previous situation reports are red.)

Significant Issues:

Strong Storm – Thursday through Sunday – Ex-Typhoon Choi-Wan – Alaska’s West Coast

SEOC received an update from the National Weather Service this morning regarding another strong low-pressure system that has an 80% chance of combining with Ex-Typhoon Choi-Wan and impacting Alaska’s West Coast Thursday through Sunday

While the forecast continues to be refined, this is NOT Merbok or Halong. Current impacts are expected to be moderate and more comparable to the storm system that affected the region on September 23.

SEOC continues to monitor the storm, receive updates from the National Weather Service, and maintain regular contact with communities in the storm’s projected path. SEOC and NWS will conduct a communications push to affected communities to provide updated information and help address concerns.

As the storm track and expected impacts become more refined this week, SEOC will adjust operational staffing hours as needed and may increase the SEOC Preparedness Level to Level 2 – Heightened Awareness, depending on forecast intensity.

Tok Wildland Fire

Individual Assistance hotline and online application portal remained open through October 19, 2026. Applicants could call 1-844-445-7131 or register online at Ready.Alaska.Gov.
