(Significant changes from previous situation reports are red.)

Significant Issues:

New Strong West Coast Storm - Thursday through Sunday:

- No impacts reported overnight.
- SEOC will make direct contact with the communities at greatest risk for coastal flooding today and through the weekend to check their status and verify communications.
- SEOC has an Enhanced operations Watch in place today and through the weekend with a full Command and General Staff ready to engage if the incident escalates.
- SEOC has a representative from the National Weather Service Sector 7 Operations Center in-person in SEOC providing weather updates and coordination among Alaska's Weather Forecast Offices for the storms.
- Some communities under Coastal Flood Warning, are also under a Blizzard Warning, adding to response complexity.
- This storm is the first of a series of storms expected to be impacting Western Alaska through next week, therefore SEOC will remain at Preparedness Level 2 – *Heightened Awareness*.
