INTRODUCTION

The following guidelines have been developed to describe activities eligible for funding under the Local Emergency Planning Committee (LEPC) grant program through the Alaska Division of Homeland Security and Emergency Management (DHS&EM). The performance period for the LEPC grant follows the state fiscal year (SFY), July 1 to June 30.

Federal law established the Emergency Planning and Community Right-to-Know Act (EPCRA, CRTK) in 1986 in part due to an event in Bhopal, India, where gas from a chemical plant was accidentally released killing thousands of people. EPCRA required states to establish a State Emergency Response Commission (SERC) and create Local Emergency Planning Districts (LEPD), with local LEPCs within these districts. LEPCs are directed by state and federal law to help increase community awareness of chemical hazards and other hazards through planning, preparedness, and mitigation from potential events such as the one that occurred in Bhopal. These missions are accomplished by the LEPC through its connection with community stakeholders, facilities, and industry reporting on hazardous and extremely hazardous substances to the LEPC through Tier II reports.

The Alaska SERC developed policies and procedures for communities and LEPCs. These policies and procedures include forming an LEPC within an existing LEPD, establishing and maintaining bylaws, maintaining local emergency plans, and responding to EPCRA and CRTK requests. The document is titled "Responsibilities, Policies and Procedures of the Alaska State Emergency Response Commission and Local Emergency Planning Committees" and is available online at <http://ready.alaska.gov/SERC>. The responsibilities of LEPCs as defined in statute and described in this document are the foundation for the LEPC baseline goals and baseline grant funding allocations.

LEPCs are planning entities and generally cannot commit manpower or resources. The broad volunteer membership required of LEPCs is its strongest asset. LEPCs should help involve residents in the discussion about appropriate emergency response to disasters in their community and how public funds are spent to better prepare.

LEPC grant funds are used to support, sustain, and enhance the LEPC in order to perform its statutory responsibilities. The funds are used for outreach and planning projects to inform and prepare the community for any hazard it may face. In response to comments received by LEPC representatives, the SERC Finance Committee expanded allowable activities for which the LEPC grant funds may be utilized.

Funds for these activities are limited to those annually allocated by the legislature and may not be sufficient to fully cover all requests. DHS&EM anticipates receiving funding for LEPCs; however, funding awards will be contingent upon final action by the legislature and the Governor within the SFY budget. The SFY LEPC allocation is appropriated through General Funds (GF) and subject to final action by the legislature and the Governor. The LEPC mission will not change regardless of the funding mechanism. Applications for LEPC grants must be submitted to DHS&EM. Funding for individual LEPCs will be based on baseline funding levels established by the SERC Finance Committee.

There are no fund matching requirements associated with the LEPC grant funding process. Funding for other all-hazards disaster preparedness planning activities should be sought through other available federal or state entities.

The following LEPCs and LEPCs are formally recognized by the SERC and if currently active, are eligible to apply for an LEPC grant:

2. Funding will be awarded for LEPC activities to be conducted during the applicable SFY only.
3. All unexpended or unencumbered grant funds will be returned to the state through an award amendment process effective close of business June 30.
4. Funding awards will be made contingent upon satisfactory completion of deliverables funded in the current and prior years, to include timely submission of quarterly reports and annual equipment inventory report of capital equipment purchases with LEPC funds. The SERC Finance Committee (at its discretion) may reduce the baseline funding award to an LEPC that has not completed deliverables funded in previous fiscal year(s). Additionally, the SERC Finance Committee will continue to closely monitor the performance of LEPCs that fail to submit a quarterly report by the due date or fail to have a representative attend LEPCA or SERC meetings. APPLICATION PROCESS

The application contains a section to provide the LEPC's contact information, hazardous/extremely hazardous substance information, and an evaluation of previous baseline performance.

An LEPC must also create an anticipated baseline budget in the application. Space is provided to estimate LEPC management, outreach, and preparedness expenses. The total budget must be equal to the projected SERC Finance Committee baseline funding shown in Table A of the grant application.

Expenses under the outreach and preparedness categories must be associated with an activity. A narrative description of the activity is required.

The application must be signed by an authorized local jurisdiction and LEPC representative.

A current LEPC Signatory Authority Form and Membership Roster must be completed and returned with the Application. These documents can be found on the DHS&EM Grants website.

AWARD PROCESS
