## Application Instructions:

The application contains a section to provide the Local Emergency Planning Committee (LEPC) contact information, hazardous/extremely hazardous substance information, and an evaluation of previous baseline performance.

An LEPC must also create an anticipated baseline budget in the application. Space is provided to estimate LEPC Management, Outreach, and Preparedness expenses. The total budget must be equal to the projected State Emergency Response Commission (SERC) Finance Committee Baseline Funding shown in Table A.

Expenses under the Outreach and Preparedness categories must be associated with an activity. A narrative description of the activity is required.

The application must be signed by an authorized local jurisdiction and LEPC representative.

A current LEPC Signatory Authority Form and Membership Roster must be completed and returned with the Application. These documents can be found on the Division of Homeland Security and Emergency Management (DHS&EM) Grants website.

The following table reflects the baseline funding level for all current LEPCs, and may change from year to year depending on the availability of funds and decisions by the SERC Finance Committee. The baseline funding level for each LEPC was determined by the following:

- Number of Tier II reporting facilities
- Number of extremely hazardous substances (EHS) in the Local Emergency Planning District (LEPD)
- Hazmat transportation issues
- Population at risk from an EHS release within the LEPD (excluding work–site population)
- Population at risk from all–hazards
- Funds available for award
- Previous year’s performance
