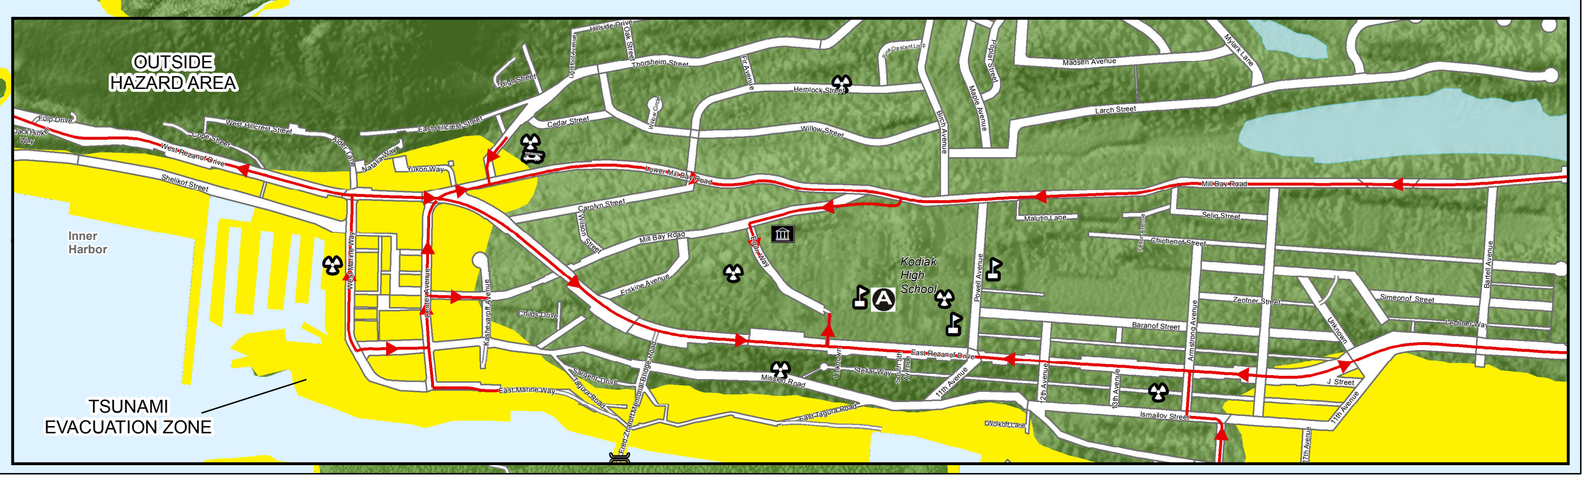
0 0.5 Kilometers

NOTICE

This tsunami evacuation zone map was developed based on numerical modeling of seven tsunami scenarios by DGGS. The evacuation zone represents the area from the maximum modeled inundation line developed by DGGS to the coast. However, DGGS is not responsible for any error or modification in the data shown in this map. The map should not be used for site-specific planning. The evacuation routes were developed by local emergency officials and reviewed by the Kodiak Local Emergency Planning Committee.


MAP REVISED 06-24-2013
