| <b>Communities Affected:</b>                           |  |                            |

## Step 4: Estimated Impacts and Desired Outcomes

For each capability area below describe the estimated impacts to the jurisdiction and desired outcomes. Explain both statements as necessary for each core capability.

|            |                    |  |
|------------|--------------------|--|
| Mitigation | <b>Definition:</b> | Mitigation includes those capabilities necessary to reduce loss of life and property by lessening the impact of disasters. It is focused on the premise that individuals, the private sector, communities, critical infrastructure, and the State as a whole are made more resilient when the consequences and impacts, the duration, and the financial and human costs to respond to and recover from adverse incidents are all reduced.  |
| Response   | <b>Definition:</b> | Response includes those capabilities necessary to save lives, protect property and the environment, and meet basic human needs after an incident has occurred. It is focused on ensuring that the State is able to effectively respond to any threat or hazard, including those with cascading effects, with an emphasis on saving and sustaining lives and stabilizing the incident, as well as rapidly meeting basic human needs, restoring basic services and community functionality, establishing a safe and secure environment, and supporting the transition to recovery. |
| Recovery   | <b>Definition:</b> | Recovery includes those capabilities necessary to assist communities affected by an incident in recovering effectively. It is focused on a timely restoration, strengthening, and revitalization of the infrastructure; housing; a sustainable economy; and the health, social, cultural, historic, and environmental fabric of communities affected by a catastrophic incident.   |

|                   | <b>Core Capability</b>                         | <b>Estimated Impacts</b> | <b>Desired Outcomes</b> |
|-------------------|--|--------------------------|-------------------------|
| <b>Common</b>     | <b>Planning</b>                                |                          |                         |
|                   | <b>Public Information and Warning</b>          |                          |                         |
|                   | <b>Operational Coordination</b>                |                          |                         |
| <b>Mitigation</b> | <b>Community Resilience</b>                    |                          |                         |
|                   | <b>Long-term Vulnerability Reduction</b>       |                          |                         |
|                   | <b>Risk and Disaster Resilience Assessment</b> |                          |                         |
|                   | <b>Threats and Hazard Identification</b>       |                          |                         |

|                 | <b>Core Capability</b>                           | <b>Estimated Impacts</b> | <b>Desired Outcomes</b> |

## **Step 5: Community Preparedness Report (CPR): Planning, Organization, Equipment, Training and Exercise (POETE) Assessment**

The POETE framework is the basis for assessing current capability levels. For each core capability, assess how close the jurisdiction's desired level of preparedness is in each of the POETE capability elements.

Reference the "Alaska Assessment Guidebook" for more information on completing the Community Preparedness Report.

### ***Directions:***

This section is equipped with drop-down boxes anywhere it states, **Choose an item**. Click on the words choose an item to activate the drop-down box. Select the most appropriate answer for each capability in the POETE activity.

Narrative boxes **do not** contain the words **Choose an item**. If applicable, provide details that help support your selected level in each POETE category.

Transfer (cut and paste) the **Desired Outcome** from the previous section to help guide the levels selected for each capability.
