Travel Advisory

For current driving conditions dial 511 or link to: <http://511.alaska.gov/>

Alaska Volcanoes

Cleveland Volcano Alert Level: Watch and Aviation Color Code: Orange

A small explosion occurred at 7:32 AM AKDT (15:32 UTC) today and was detected by infrasound (air pressure) sensors. No satellite views are available since the event, but an image from earlier this morning shows the volcano obscured by clouds. Some ash may have been emitted during the event but was likely minimal due to the small size and duration of the explosion.

For Alaska Volcano updates, go to: <https://www.avo.alaska.edu/>.

Alaska Cyber Security Advisories

The potential exists for malicious cyber activities, but no known exploits have been identified or known exploits have been identified but no significant impact has occurred. Advisories page is located at http://doa.alaska.gov/ets/security/S_Advisory/index.html.

For the State Cyber Security Program contact Chris Letterman, State Computer Security Officer: chris.letterman@Alaska.gov or go to the Alaska Department of Administration, Enterprise Technology Services at: <http://doa.alaska.gov/ets/Security/>.

The Next Situation Report: will be 11 May 2016 at 11:00 am. A significant change in the situation or the threat level will prompt an interim report.
